The European Atomic Energy Community (EAEC or Euratom) is an international organisation established by the Euratom Treaty on 25 March 1957 with the original purpose of creating a specialist market for nuclear power in Europe, by developing nuclear energy and distributing it to its member states while selling the surplus to non-member states. However, over the years its scope has been ...

The Treaty on European Union (2007) is one of the primary Treaties of the European Union, alongside the Treaty on the Functioning of the European Union (). The TEU forms the basis of EU law, by setting out general principles of the EU's purpose, the governance of its central institutions (such as the Commission, Parliament, and Council), as well as the rules external, foreign and security policy.

The end of World War II left Europe divided between the communist, Soviet-dominated eastern bloc and the largely democratic western nations. There were fears over what direction a rebuilt Germany would take. In the West, thoughts of a federal European union re-emerged with hopes of binding Germany into pan-European democratic institutions to the extent that it, or any other allied European ...

Trade. The European Union is the largest trade block in the world. It is the world's biggest exporter of manufactured goods and services, and the biggest import market for over 100 countries. Free trade among its members was one of the EU's founding principles. This is possible thanks to the single market.
